Low Budget PCIE Wireless Adapter - [Solved]
2019/09/01

Ever since I built my computer I've been using a USB Wifi Adapter:https://www.amazon.com/Wsky-1200Mbps-Wireless-Wifi-Adapter/dp/B0779VHS6S/ref=sr_1_1_sspa?s=electronics&ie=UTF8&qid=1532218366&sr=1-1-spons&keywords=blueshadow+usb+wifi+adapter+1200&psc=1It honestly worked perfect for about 3 months until recently, I think it's dying from all the overheating since I'm constantly using it. So to get a more long lasting one, I'm looking into PCI-E adapters. Obviously there's a lot to choose from, so I'm looking for a little help in searching for one that fits a price budget of around 20-30 dollars and provides similar performance to the usb adapter above. Thanks!

mini gps signal jammer
